

The American Society of Civil Engineers Gives
America's Roads Grade: D

D

www.infrastructurereportcard.org

1 in 5

highway miles
are in poor
condition

\$160B

wasted in traffic
delays due to
congestion

\$420B

needed to repair
existing highways

\$167B

needed
for system
expansion

Every dollar spent on road, highway, and bridge improvements returns **\$5.20** in lower vehicle maintenance costs, decreased delays, reduced fuel consumption, improved safety, lower maintenance costs, and reduced emissions.

Tell your member of Congress to invest in American's roads and infrastructure.
